## MAJOR FEATURES

Our both CC-01 and CC-03 Coin Counters and Packagers are the first of its kind using of advanced User-Interface technology with 3" color LCD display (Switchable to even B/W Screen)) in such footprint . While CC-01 compact model is suitable for small and portable operation, CC-03 is best suitable for medium to heavy-duty operations at small banks, vending, amusement parks, car-wash businesses.

Both models allows piece counting as well as Value counting for single denomination as preset. LED Display can easily be switched from Piece count screen to Value Count Screen.

Both Models allows batching up to 99,999 as well as user-preset Denomination batching for all denomination up to 9999.

During counting operation, non-selected coin denominations if mixed within, will deliver to small reject box (or bag if attached).

While CC-01 provides small hopper capacity with a coin tray which can be closed during movement, CC-03 provides large hopper capability to hold up to 10,000 dimes.

If External Printer is connected, both coin counters able to print counting results. Recommended printer: SNBC Model R-118i Thermal DB9.
